Mission & Vision

Our Mission

Drive business transformation through innovative technology, delivering scalable solutions that simplify complexity, accelerate outcomes, and create measurable value.

- ✓ Build intelligent, user-centric digital solutions
- ✓ Enable faster decision-making and execution
- ✓ Deliver scalable systems for evolving business needs

Our Vision

To become a globally trusted technology partner, empowering organizations to innovate, scale, and lead in a rapidly evolving digital world.

- ✓ Trusted partner for digital transformation
- ✓ Cutting-edge and future-ready solutions
- ✓ Global reach with industry-agnostic expertise

Core Values

- ✓ Customer-first
- ✓ Quality & Security
- ✓ Continuous Innovation

99%

Customer Satisfaction

50+

Global Clients

Innovation Focus

We continuously strive to stay ahead of industry trends and regulatory changes, integrating the latest advancement in technology.

Our Products

Comprehensive healthcare technology solutions for regulatory compliance

DyazPulse HIS

Hospital Information System

AI Powered

Web-based Hospital Information System for end-to-end clinical and administrative workflows. Features patient registration, EHR, pharmacy, lab, and billing.

✓ Patient Registration ✓ EHR Mgmt. ✓ Lab Integration ✓ Billing ✓ NPHIES

Web

DyazPulse RCM

Revenue Cycle Management

AI Powered

Desktop application for Revenue Cycle Management. Streamlines claims processing, denial mgmt., and payment posting for faster reimbursements.

✓ Claims ✓ Eligibility ✓ Preauthorization ✓ Denial Management ✓ NPHIES

Desktop

DyazRIMS

Regulatory Information Management System

AI Powered

Web-based Regulatory Information Management System with eCTD publishing, document management, and regional validations for compliance.

✓ eCTD Publishing ✓ Document Management ✓ Validation ✓ Cloud Storage

Web

DyazCTD

CTD Dossier Preparation System

AI Powered

Desktop app for structured CTD formats, automated ToC generation, automated hyperlink & bookmarks, document summary and auto file classifications.

✓ Template Creation ✓ ToC Automation ✓ Regional Structure ✓ Local Storage
